Purpose

The purpose of this report is to inform the school principal and school community of the destinations of students from this school who completed Year 12 in 2007. This is one indicator of the outcomes of schooling.

A school may choose to use this information to:

- Review its senior schooling programs and services, e.g. subject offerings, career advice, links with employers and/or tertiary institutions
- Contribute to its reporting to parents, e.g. through its newsletter, annual reporting documents, website.

This report has been provided to the school and its school system, where this applies. The school may publish this report, if it wishes.

Source of information

This report is based on the findings of the Queensland Government *Next Step* survey, which targeted all students who completed Year 12 and gained a Senior Certificate or Certificate of Post-Compulsory School Education in 2007, whether they attended a Government, Catholic or independent school, or a TAFE secondary college. The Office of the Government Statistician conducted the survey between 2 April and 17 May 2008, approximately six months after the young people left school. Responses were predominantly collected via computer-assisted telephone interview with a paper-based survey collected from a small number of students for whom telephone details were not available.

The survey results were compiled and reported on by the *Next Step* team, Department of Education, Training and the Arts.

Care should be taken in publicly using figures of less than 3 responses or percentages based on less than 3 responses.

Privacy statement

To protect the privacy of individuals participating in the survey, this report contains summarised information only.

Further information on the survey is available at www.education.qld.gov.au/nextstep. This website includes the statewide and regional reports on the survey findings.

Summary of findings

In 2008, 50.0 per cent of young people who completed their Year 12 at Toolooa State High School in 2007 continued in some recognised form of education and training in the year after they left school.

The most common study destination was university (18.8 per cent). The combined VET study destinations accounted for 31.3 per cent of respondents, including 10.7 per cent in campus-based VET programs, with 2.7 per cent of Year 12 completers entering programs at Certificate IV level or higher.

20.5 per cent commenced employment-based training, either as an apprentice (15.2 per cent) or trainee (5.4 per cent).

In addition to the above study destinations, a further 5.4 per cent of respondents from this school deferred a tertiary offer in 2008 (deferrers are shown in Figure 1 in their current destination).

50.0 per cent did not enter post-school education or training, and were either employed (39.3 per cent) or seeking work (10.7 per cent).

There are a range of differences between and within school, regional and statewide destinations. Care should be taken when interpreting comparative data as the findings may relate to groups of different sizes.

Response rate for this school

Table 1 **Survey Response Rate**

Number of respondents	Number of students who completed Year 12	Response rate (%)
112	132	84.8

Table 1 reports the response rate for Toolooa State High School. It expresses the number of respondents from this school, as a percentage of all Year 12 completers attending Toolooa State High School in 2007.

It has not been possible to ascertain how representative these responses are of all students at this school.

Please note that some survey participants did not provide information for particular survey questions. As a result, the number of responses shown in Table 4 onwards may not reflect the totals reported for the main destinations appearing in Table 3.

Definitions of main destinations

All respondents were categorised into their main destination, be it study or work, as outlined in Table 2. Students (in university or VET) were assigned to the study categories regardless of their labour force status.

Table 2 Main Destination Categorisations, Next Step 2008

Higher Education	
University (degree)*	Studying at degree level.
VET categories	
VET Cert IV+*	Studying Certificate IV, Diploma or Advanced Diploma (excluding apprentices and trainees).
VET Cert III*	Studying Certificate III (excluding apprentices and trainees).
VET Cert I-II/other*	Studying Certificate I or II (excluding apprentices and trainees). This category also includes students in an "unspecified" VET course, or in other basic courses (e.g. Year 12, bridging course, etc.) and with an unknown course level.
Apprentice	Working and in employment-based apprenticeship.
Trainee	Working and in employment-based traineeship.
No further education or training	
Working full-time [~]	Working full-time (35 hours or more per week) and not in a study or training destination. This includes people with part-time or casual jobs that total 35 hours or more.
Working part-time [~]	Working part-time or casual (fewer than 35 hours per week) and not in a study or training destination.
Seeking work	Looking for work and not in a study or training destination
Not studying and not in the labour force	Not in study or training, not working and not looking for work.

*Some students also in the labour market
