

Matching the Animal's - Stacey

It's all about drag and drop, and has been set out so a grade 1 to 3 child can play it. It's been made as a seen for little kids so that they can understand and be able to read the instructions and be able to play the game.

I have designed a game named The Jungle Drop. In this game you need to drop the coloured animals onto the black target animals which are in the background. The game has been set for the age group between 5 -8, the colour stands out the game and the animals represent the game.
