As this is my first newsletter at Toolooa State High I would like to start by introducing myself to our community. I am currently entering my 20th year in education with 9 of these being in leadership roles in state high school. I am a PE teacher by trade however have also been heavily involved in teaching marine studies and mathematics. My most recent role prior to starting at Toolooa High was Principal at Moura State High School where we were able to achieve significant improvement and growth for our school and most importantly for the outcomes of our students. My wife, Sally (also a teacher) and I spent many years in Gladstone before heading out to Moura and are excited about reconnecting with the Gladstone community. Our oldest son Ryan is in year 1 at Kin Kora State School and we are very impressed with what is happening at his school. Our youngest son Toby will head into Kindergarten next year but at the moment is just giving his mother a hard time at home.

I feel very fortunate to have the opportunity to work at Toolooa SHS as it is a very strong school. The obvious culture that has been developed around excellence is clear to see. The expectation, and in turn, support for every student to achieve their best and that ‘average is not okay’ is evident across the school. In my very short time at the school so far I have been impressed by what I have seen and I am looking forward to being involved in the ongoing improvement at Toolooa High.

School Musical
Our school production of ‘Alice in Wonderland’ takes place this Friday and Saturday at the Gladstone Entertainment Centre. The staff and students involved have committed an enormous of time and energy to get to this point and we are very excited about the upcoming performances. The sneak preview of the costumes look incredible and we encourage our community to come along and support the production. Friday has two performances; a matinee at 11am and evening performance at 6pm; with Saturday’s performance at 6pm. Ring through to the school office for reservations.

Diaries
The student diary is an essential piece of equipment in our school. The diary that we use at Toolooa High provides not only a place to write down homework but also a place to keep track of progress in subjects, develop plans around study times, along with a range of additional information. We are currently reinforcing the expectation that all students bring this diary to school every day and have it in each and every class. We ask for support in ensuring that you student has a diary and brings it to school. If the diary has been misplaced or damaged, the expectation is that a new one is purchased from the school.

Year 7 and 8 Transition Evenings
The opportunity to connect with our incoming students and their parents is an important process and last week saw sessions held for year 7 and 8 students for 2015. The evenings consisted of a school tour as well as an information session. The transition into high school is an important process and the information presented in these sessions was designed to support this process. I would like to recognise the work of Mr Bryan Townsend for the organisation of the programs and delivering the key information sessions, along with the team of teachers and HODs for meeting with our parents and future students as part of the school tours.

Relay for Life Team
A long cold night was met with the commitment of our school Relay For Life team over the weekend! It may have been a little cold but this impressive team took it in their stride. I would like to congratulate Mrs Natasha Read and Mrs Amanda Patzwald and their team of students for their commitment to this worthy program.

Uniform Expectations
Whilst I recognise that the temperature is a little cool at the moment, the expectations about acceptable school uniform have been reinforced to our students through notices and parades over the course of the year. It is pleasing to see the majority of our students wearing our uniform with pride, however there are a number that need to improve in this area.

Our expectation is:

- plain black shorts of an acceptable length
- school shirt
- plain black or plain maroon jumper OR senior jersey for senior students OR Capricornia representative jacket.

Attendance - “Every Day Counts”
It is not difficult to work out that the more that our students attend school the greater the opportunity to achieve. It is extremely difficult for our students to keep up with the required work if they have a poor attendance. Our ongoing focus on attendance and its effect on student achievement will continue over the course of this semester. We look forward to working with our parents to improve the attendance rates of our students.

From the Deputy’s Desk— Danielle Willard

Welcome back to term 3. I hope that everyone had a well-earned break. It was great to see so many students returning ready to get straight back into it. Year’s 7-10 reports are currently being printed, signed and posted to parents. Remember, if you have any questions or concerns about the reports please do not hesitate to email or ring the school to arrange an appointment to speak with the teacher. The student results, as demonstrated in the reports outline the wonderful work ethic and dedication that the majority of our students display towards their learning. Year Co-Ordinators are currently organising Silver and Gold awards for Term 2’s results. Invitations of students receiving these certificates will be sent to parents or caregivers shortly.

The beginning of the term is also a good time for students to evaluate their performance over the first two terms and set new goals for Semester 2. During extended form this week students will be both participating in goal setting activities and also reviewing their semester 1 results. Take the time to discuss your student’s reports with them and ask them to share their goals for Semester 2 with you. Celebrate their successes and discuss possible ways that they may be able to improve any particular areas.

There are many exciting events happening this term. Coming up this term we have the school musical. The matinee for school students is on Friday 1st August, performances for the public are on Friday 2nd, and Saturday 3rd August at 6pm. The musical is a fabulous opportunity for the students to showcase their fabulous artistic skills. Tickets are available for purchase from the school office.

Again, welcome back to term 3.

Cheers

Mrs Danielle Willard
Junior Secondary Leadership Team Cook up a Profit

As part of the Junior Secondary Leadership Team, a group of grade eight and nine boys have set their sights on restarting the school radio. The boys know that they are taking on a mammoth task, with many challenges, but they have certainly started in the right direction with several fundraisers planned already. The sausage sizzle, which ran on the first Sunday of the holidays, was a great success and the leaders have made a decision to put the funds towards another fundraiser to continue towards their goal of purchasing new equipment for the school radio.

The group showed outstanding entrepreneurial skills, organising the fundraiser in conjunction with Kirkwood Woolworths and local businesses who were generous enough to donate food, drinks and their time. The assistance from parents and fellow students was greatly appreciated and made for an enjoyable and successful day for all involved. Special thanks must go to Scott Kean from BP for the donation of the sausages, bread and miscellaneous items, as well as Milan Versic from LBS Accountants for the donation of a number of cartons of drinks.

The Junior Secondary Leadership Team is extremely proud of the boys’ efforts and looking forward to the next step in this fantastic project!

Miss Jess Batey
Junior Secondary Leadership Team Facilitator

Junior Secondary Leaders Fundraising Success

A group from the Toolooa SHS Junior Secondary Leadership Team held an unbelievably successful fundraising campaign last Thursday at the school’s annual athletics carnival. The group, made up of boys from year eight and nine, sold Fairy Floss and Snow Cones throughout the day and were overwhelmed with the support from their fellow students.

The money raised during this event is contributing to the boys’ ultimate project of getting the school radio back up and running.

Congratulations to this outstanding group of junior leaders and good luck for your next venture!

Miss Jess Batey
Junior Secondary Leadership Team Facilitator
Senior Schooling News
With Natalie Jounquay

MHS Careers Newsletter Service
Some of the information from the most recent newsletter:

ADFA Education Award
For current year 11 students: Award presented to year 12 students in recognition of leadership potential, and academic and sporting achievements exhibited during year 11. Award comprises of laptop and certificate along with plaque of recognition for your school.

Bond University Scholarship Program 2015
Bond are offering a large number of full fee and part fee scholarships as well as cash bursaries to outstanding Year 12 students. There are scholarships for academic achievement, community engagement, elite sportspeople and more.
Applications close Thursday 31st July:

Griffith University Honours College
Applications for 2015 commencing students will open on Friday 18th July.
Griffith Honours College is an extra-curricular program that provides students with experiences and skills that complement their undergraduate degree. To be considered, an applicant must:

Have Griffith University listed as a preference on their QTAC/UAC application
Have a score of OP1-3 (or equivalent) but students with OP4-6 also encouraged if they have demonstrated exceptional personal achievements.
Complete application form available online
For further information email honourscollege@griffith.edu.au
http://www.griffith.edu.au/griffith-honours-college

Southern Cross University: STAR Entry Scheme
Student registrations open 16th July and close 10th September.
Southern Cross University STAR Entry Scheme enables Year 12 students to gain early admission to SCU on the basis of their school Principal’s recommendation. The Scheme aims to match an individual student to a particular course based on their likelihood of success in their chosen discipline.

Queensland Skills Gateway
The Queensland Skills Gateway has been launched to help Queenslanders to make informed choices about training. The website provides information on vocational education and training available across Queensland including courses, training providers, government funding and career pathways. The site also features a simple questionnaire to help individuals find out if they are eligible for government subsidised training.

School Opinion Survey
The annual School Opinion Survey will be conducted between 21 July and 3 August 2014. All families (previously a sample of families), school staff, and a representative sample of students will be invited to take part. We encourage you to take this opportunity to have your say about what this school does well, and how this school can improve.
Access details for the Parent/Caregiver Survey will be sent home this week.
Survey queries or requests for translations can be directed to Rachael (office) on 49714 333.
RACI Chemical Analysis (Titration) Competition

The Central Queensland RACI titration competition takes place in Science Week every year. Schools from Bundaberg to Yeppoon usually take part in this competition. Students compete as a team to accurately determine the concentration of three unknown solutions. The team is then given an overall score based on the accuracy of each team member. Six Toolooa students from year 11 and 12 will be competing as two separate teams in this competition on Thursday the 7th of August.

This is a challenging competition that requires a high skill level and the students are working hard to be prepared by participating in after-school practice sessions. By the time the competition date arrives, most of them will have completed at least 8 hours of practice for the competition. This year we also have three year 10 students who are training in preparation for next year’s competition.

Last year our school’s teams scored 1st and 3rd place in the CQ competition which was a fantastic performance, considering the number of teams who entered the competition. This meant that both teams qualified for the National Final. One of these teams placed 17th overall nationally from a total of 147 competing teams and were 5th overall in Queensland.

All of the students in our 2014 teams are working hard and are hoping to once again qualify for the National Final, despite knowing that they face some very tough competition, particularly from one of the Bundaberg schools. If either team is able to place 1st, 2nd or 3rd in the CQ competition then they will earn themselves a spot in the even more challenging National competition which takes place in October.

The school and students would like to thank Mrs Heather Warren and QAL as QAL has provided chemicals and Mrs Warren has continued to donate her time to help Miss Cooper to train students during the after-school practice sessions.

Indigenous Support Update

This year has been a very busy year for the Indigenous Students of Toolooa SHS.

In Term 2, students have participated in a number of events and programs including the QUT university trip, ARTIE program, Defence Force recruiting and career planning.

Term 3 ARTIE was launched with the help of inspirational speaker Michael Tuahine and rugby league legend Petero Civoniceva.

We have a range of exciting activities and programs planned for Term 3 including FOGS (Former Origin Greats) career expo on the 5th August for our senior students, NAIDOC celebrations this Friday and the organisation of reward trip to Brisbane for all ARTIE students who have achieved a minimum of Very Good or Excellent for both effort and behaviour in Maths and English and 90% physical attendance.

The department encourages all our Indigenous students to discuss their report cards with teachers and their parents and to set goals on how to improve.

Also a big congratulation to seven of our senior students who were awarded an excellence award for academic achievement and attendance.

Congratulations Sirayah Benjamin, Shayla Cartwright, Jordanna Ghee, Sharna Gaston, Molesha Ginn, Molly Dawes and Krysta Greer.
Nurse Natters

This athletics carnival we had the health hut to promote sun safety, nutrition and physical activity within the school community. During this event the students took every opportunity to promote health messages to students, taking sunscreen around, offering fruit to students and making sure plenty of water was available.

Thanks to Anna Emile and Ashleigh Kerfoot for helping set up. It was greatly appreciated. Thank you also to the other willing helpful students and the tuckshop ladies who helped all day.

It was fantastic to see the students having a great day.

Yours in health,
School Based Youth Health Nurse Phone 4971 4364.
Your SBYHN
Lani Clements
Ph 4971 4364.

Business

A busy term 3 is ahead, the year 9 students are busily working on their Business Venture.
This is where students operate a business (on a small scale), they choose a managing director, financial director and other positions within their classes. Each group then decides on a product they would like to make and sell to Toolooa students, in the hope that their group will be successful and return a profit for their group.

This involves students making prototypes, calculating costings for their various products, making and marketing their products. Students will be selling to other Toolooa students later in the term. There will be 6 different groups with varying products available to purchase, each group vying for the most successful group. Form notices and posters will keep you informed on the types of products and pricing. We wish them all the best in their venture.

Brain Bee

Tuesday 22nd July saw four year 10 students compete in the Queensland final if the international neuroscience competition at the University of Queensland. Brandon, Melissa, Jasmine and Sabine were successful in reaching round two by being in the top 144 of 1070 students in Queensland after round 1.

Congratulations to the students on their efforts - you did yourself and Toolooa proud!!
TERM 3 welcome back!!

I’m sure you all enjoyed the short break from school and I hope you are as eager as I am to get this term happening. Some exciting things that have been going on so far are:

Breakfast club has started back this term and last Thursday we had our first one for the year. What a great turn out with more than 40 plus students showing up to say hi; get a free feed and enjoying the morning with friends. We had an awesome turn out of helpers and volunteers who were able to cook up a storm in the kitchen resulting in some delicious PANCAKES and yummy fresh fruit salad.

I am really looking forward to seeing Breakfast club continue this year and working with a great team towards an awesome goal. The next Breakfast club will be Thursday 31st of July at 8am and will continue fortnightly, keep your eyes out in the notices for more information.

On Saturday July 19th I participated in my very first Tour De Chaplain, this is one of Chaplaincies biggest fundraisers of the year and it was an honour to be involved. With over 60 riders participating and a huge team of supporters Tour De Chaplain 2014 was a great day! The riders included an incredible mix of students, teachers, parents and even the professionals. This great mix of people made the day one to remember, after riding from Flutter Creek to Many Peeks and back everyone crossed the finish line with a crowd of supporters clapping and cheering them in.

After riding 104km I am sure they enjoyed that ending, plus a slushy to cool off.

“Today you are You, that is truer than true. There is no one alive who is Youer than You.” – Dr Seuss

- Chappy Claire

---

**Total Lunar Eclipse - 8th October**

Mark your calendars! If the clouds cooperate then this will be a fantastic opportunity to view a total lunar eclipse. It begins at about 7:15 pm and finishes at about 10:35 pm. You will see the full moon gradually disappear until the moon appears blood red. The full moon will then gradually return.

Total lunar eclipses occur when the Earth’s shadow falls directly across the full moon.

The moon appears a shade of coppery red during the maximum eclipse because the Earth’s atmosphere refracts light from the Sun, so our shadow is not entirely dark. Our atmosphere absorbs most of the blue and green light, so only the red is left in the shadow. This makes the moon appear red during the maximum total lunar eclipse.

---

**2014 Early School Leavers Survey**

The Queensland Government is conducting its annual state-wide survey of students who left school in Years 10, 11 and prior to completing Year 12 in 2013. The Early School Leavers survey is a brief, confidential survey that provides a picture of the employment, study and life choices made by Queensland school leavers in the year after they left school to understand why young people leave school early and to help early school leavers make positive career choices.

Between July and August, our students who left school in Years 10, 11 and prior to completing Year 12 last year can expect to receive instructions to complete a web-based survey or a telephone call from the Queensland Government Statistician’s Office to complete the survey. Please encourage them to take part. If their contact details have changed, please assist the interviewer with their updated details or forward the survey to their new address so they can participate. Thank you for your support of the Early School Leavers survey in 2014.

For more information visit www.education.qld.gov.au/nextstep/ or telephone toll free on 1800 068 587.
It has taken many years of training and dedication to get to this point. **Kara Pascoe** and **Jasmyn Dew** have recently taken part in the 2014 Australian Gymnastics Championships. The competition was held in Melbourne at the Hisense Arena from the 27th May through to the 31st May.

The girls were competing as part of the QLD Acrobatic Team. Both girls managed to perform some amazing routines which helped them to finish fourth in levels 6 and 7 respectively. To get themselves physically and mentally ready for such events means the gymnasts can train up to 30+ hrs. a week and have shown a tremendous amount of dedication to their sport.

To be part of the QLD team is an honour and yet to have both these girls place 4th in Australia is a fantastic achievement.

**University trip – CQUniversity July 2014**

Twelve students from year 11 & 12 attended the CQUniversity in Rockhampton during the first week of the school holidays to attend the Engineering Link Project (ELP). This project has been operating since 2001 where students stay at university accommodation and utilise university equipment.

The ELP lasts for three days and students select a discipline of engineering they are interested in and they spend the day working in that area.

- A guest engineer from the local community (industry or university) talks briefly about their career, about why they become an engineer, what their life as an engineer is like and what problems and situations they face in their work.
- Students receive a model problem and in groups consider the problem, test materials, design a solution and produce a proposal.
- The proposal is assessed by the engineer and then the solution is built.
- These solutions are then tested (usually to destruction).

The engineer and students debrief and discuss the day's outcomes.

Well done to these Toolooa students for taking holiday time to investigate possible career pathways:

Thanks also for the Toolooa teachers for giving up holiday time to make this possible…..Jo Cooper & Tony Muller.
University Trip!

There is no doubt that choosing a career pathway is a difficult task. Whether it is the concern of being unsuccessful or losing interest within the pathway chosen, it is clear that this task can be seemingly difficult. However, this task can be easier for 36 Toolooa students who elected to attend the Brisbane University Trip. This trip allowed the students to further grasp the possibility of a university lifestyle, as well as determine their potential career pathway. With the opportunity to explore some of Brisbane’s finest universities, it was clear that this trip was not to be missed.

After a long trip down to Brisbane by train, the first university that was visited was one of Brisbane’s most prominent and renowned universities. Known for its practical learning and professional technological faculties, the Queensland University of Technology (QUT) offered a broad spectrum of its courses through two eye-opening campuses. With the guidance of two successful QUT students, Toolooa students explored QUT’s diversity through two specialised locations of Gardens Point and Kelvin Grove. At Gardens Point, those wishing to pursue a technological or engineering career were greeted with extensive information about QUT’s advanced faculties as well as the upgraded facilities. On the other hand, Kelvin Grove engaged those who were interested in the health and arts professions, offering essential and purposeful information about QUT’s other courses. “It was a modernised university with lots of practical learning and hands-on experiences,” stated current school captain, Jordanna Wale, who is aspiring to become involved in a professional pathway. In both cases, the Toolooa students gained important information about the various opportunities QUT has to offer, as well as obtaining a grasp on what university lifestyle holds for them.

It was clear that QUT seemed promising for a large variety of students; however the Griffith University was one which several students were eager to see, and explored through a tour of the Nathan Campus. Griffith University offered a different perspective of life through the eyes of a university student by its unique location and the opportunities for its students. This different approach caught the attention of certain students, in particular Adam Murray, a Grade 12 student wishing to become an architect. “Griffith felt similar to QUT, but it had a relaxed feeling. The campus felt calm and felt like it would take away a lot of stress for the university students,” Adam said. As well as the strong approach to its diversity and large variety of courses, the tour of Griffith consisted of a thorough viewing of the on-campus residential housing. From this, the students were able to feel the atmosphere of the on-campus environment, which resulted in different views of the on-campus housing – some felt comfortable with the concept while others felt that on-campus lifestyle was daunting. Nathan gave students a great insight of what Griffith has to offer, and broadened their view of university lifestyle.

The final university that was visited was the exquisite University of Queensland (UQ). Being one of the universities that the students were most eager to see, the high expectations were exceeded through the lovely UQ grounds. With the help of a current UQ student, the students were able to obtain knowledge as to what UQ offers as well as the different courses they have. In particular, the possibilities of overseas student exchange were discussed, which caught the attention of Year 12 student Edgar Maguta. “It would awesome to be an exchange student- the different culture, different schooling and even the people,” Edgar said. It was clear that all the universities that were visited were important to all students in one way or another.

As well as the tours of the impressive universities, the students also gained further important information. Although the selected universities were located in Brisbane, the couple of days allowed the students to gain an idea of what Brisbane itself is made of in terms of the ‘city feel’. Coming from a regional town like Gladstone, many students quickly realised the clear differences between the two locations, as a more rushed and energetic atmosphere can be found within Brisbane. Additionally, current university students who previously attended Toolooa presented their stories of university life as well as their future after Toolooa. This presentation allowed current Toolooa students to gain an insight of the ex-students journey and have the ability to have meaningful conversation in a more comfortable manner. Thank you to Kimberly Warren, Courtney Rohde, Jess Fuller, Jess Hausheer, Steve Thomas, Sarah Basillie, James Basillie, Isabelle Wood, Bryn Rohdmann, Brittany Wale and Sarah Kent who gave up their Friday night to speak to us.

After all the universities and touring the students participated in, it almost seemed like a bad thing they would have to return home. So if you’re a student that is unsure about your future, or you would not like to obtain more information about universities and professional pathways, then the University Trip is essential. Not only will you enjoy a trip to Brisbane, but you will more importantly determine what you will do in the future, and what you will do throughout the rest of your journey through life.

Written by Maddie Dryburgh and Bradley Fuller
This term the school will be participating in the Operation Christmas Child Appeal. This wonderful charity is run by Samaritan’s Purse, an international group that operates in impoverished countries all over the world. Much of their work involves helping communities provide some of their most basic needs – such as water filters, schools and medical treatment and many other things. These things help the entire community – but each year it is OPERATION CHRISTMAS CHILD that truly brings a smile to the faces of the children in these villages. Last year a record 316,323 boxes were sent from Australia and New Zealand.

The appeal involves preparing a shoebox of items for an impoverished child. Each shoebox contains at LEAST ONE item from SIX basic categories: something to love, something to play with, something for school, something for personal hygiene, something to wear and something special. It is very important that each box also includes enough money to cover the cost of shipping the box ($9). The best way to do this is to pay online, so that you can print a bar code to attach to your box. You will then receive an email early in 2015 to let you know which country your box was sent to.

When a child opens a shoe box, they're opening more than a present lovingly prepared just for them. They're opening up their community to a world of life-changing opportunities. The boxes bring joy and hope to children in desperate situations around the world. As each shoe box gift is delivered, it is treasured by the child that receives it.

This year, many classes will be asked to work together to complete one or two boxes. Any students who would like to prepare a box on their own (or with their family) should see Miss Cooper in the Science Staffroom and she will give you an official box and all of the information that you need to be able to prepare your box correctly.

Last year the school prepared 54 boxes that were then sent to South-East Asia. Hopefully we can prepare an equal or greater number of boxes this year.

Ideally, all shoe boxes should be completed and returned to Miss Cooper in the Science Staffroom by Monday the 15th of September, but she can still accept them in the 1st few days of term 4.

For more information go to:  www.operationchristmaschild.org.au
Toolooa State High School presents a production of *Alice in Wonderland* JR.

You are invited to attend “Alice in Wonderland” at Gladstone Entertainment Convention Centre.

Performances are as follows. This should be a wonderful night filled with fantastic costumes and Performances.

Friday Matinee for school is 11am, 1st August 2014
Friday night performance is 6.00pm, 1st August 2014
Adults $15.00
School age Children $7.50
Saturday night performance is 6.00pm, 2nd August 2014
Adults $15.00
School age Children $7.50

Tickets are to be purchased from the office at Toolooa SHS.

Please pass onto any of your members who would be interested in attending this musical and who would like to support the arts at Toolooa SHS.
Beauty Short Course - Gladstone

Basic Skincare and Make-up for teenagers

Have fun with skincare and make-up!

This one day course covers the fundamentals of skin care, makeup application and products.

You will learn a quick skin analysis system for yourself and recommended product types for your skin care routine.

You will also learn use of different tools, learn to match foundation, high-light, contour, choose appropriate pigments for eye, lips, and cheeks and how to apply false eyelashes correctly.

(Students must be 15 years or older)

Investment: $199 (includes lunch)

Dates available:
- 2 July
- 9 July
- 24 September
- 1 October
- 17 December

Time: Wednesdays, 9am-3pm

APPLY NOW by phoning 1300 27 8233 or apply in person by visiting the campus on Derby Street, Gladstone

Certificate III Telecommunications

- GREAT OPPORTUNITY
- REWARDING CAREER
- BE PART OF A FORWARD THINKING COMPANY

Are you looking to launch your career into the Telecommunications world? Are you able to commit to a 24 month apprenticeship, working a minimum of 38 hours over a 5 day week? Are you willing to put in the hard yards & show dedication and commitment with the possibility of a full time role on completion? Are you someone who is able to just get in and get the job done, despite the tasks? Then this could be the opportunity you’ve been looking for.

CTC Apprenticeships is seeking applications from Rockhampton locals to undertake Certificate III in Telecommunications

CTC is looking for applications with the following skills and abilities:
- MUST be highly interested in communication and technology
- Reliability is a MUST – commitment to 5 days a week for 24 months(38hrs/wk)
- Computer literacy would be advantageous
- Effective customer service is a MUST
- A polite and friendly mannerism
- Self driven & can show initiative to achieve goals under own steam
- Handle high workload on a day to day basis and be able to prioritise tasks
- Drivers licence is advantageous
- High Achievement in Maths and English is required
- A sensible, no nonsense person is what we are looking for.

To be considered for this position you will need to complete an application form online, attach an up to date resume and include a cover letter outlining your skills and experience and the reason you are interested in the role.

If you have applied recently for other roles, please contact the office to indicate your expression of interest in the role.

For more information on this position contact Brooke on 4922 2008
Applications close Friday, 1 August 2014
