STUDENT RESOURCE SCHEME

Toolooa State High School

Dear Parents/Guardians,

The Queensland Government supports students' education by providing funding for:

- * Instruction, e.g., teachers
- * Facilities, e.g., buildings, amenities, furniture
- * Administration, e.g., staffing and resources to administer the operations of the school.

Funding does not extend to individual student resources such as textbooks, computer or musical equipment for personal use, and many items used/consumed by the student in the classroom. Supply of these items is the responsibility of parents.

To provide parents with a cost-effective alternative to purchasing resources elsewhere, Toolooa State High School operates a Student Resource Scheme for 2025 that requires no parent contribution amount outside of the Textbook and Resource Allowance.

The scheme ensures that students have the resources required for them to engage with the curriculum for their education, and saves parents time and money in sourcing the prescribed materials elsewhere. Savings are gained through the school's bulk purchasing practices and hiring arrangements. The scheme is not used to raise funds for other purposes, and revenue collected through the scheme is applied only to the resources and operation of the scheme.

The scheme's operation, resource inclusions and participation fees were approved by the school's P&C Association at the meeting held in November 2024.

I look forward to your support in ensuring our students start day one prepared and resourced for the academic challenges ahead.

Justin Harrison

Principal

Scheme Overview

SRS Participation

The objective of the scheme is to provide a convenient and cost-effective way for students to access the educational resources necessary to enhance their learning experience at school. The Department encourages parents to participate in the scheme. Participation in the SRS is optional, and no obligation is placed on a parent to participate. Participation is for the duration of your child's enrolment at the school.

Student is new to the school....

Parents are required to complete and return the SRS Participation Agreement Form when joining the scheme for the first time. If no participation form is received the school will take the view that the parent has chosen to opt out of the SRS. The parent is then required to provide the educational resources listed in the SRS for their child by the start of the school year. A parent can opt in or out of the scheme in subsequent years by completing another Participation Agreement Form.

Continuing student of the school....

A parent's participation or non-participation in the scheme will continue as per their previously completed Participation Agreement Form. A parent can opt in or out of the scheme in subsequent years by completing another Participation Agreement Form.

If a parent has opted out of the scheme the parent is required to provide the educational resources listed in the SRS for their child by the start of the school year or in the case of activity consumables, as resource lists become available from units.

Resource Inclusions

Potential resources to be included in the SRS are detailed in this booklet. Materials are subject to change at the teacher's discretion.

Resource Exclusions

Student cooking ingredients, bring your own device and graphics calculators are excluded from this student resource scheme and must be supplied by the parent/carer if required.

Type of Resources provided

Generally, the three types of resources that could be included are:

- **Owned** – these items are retained by the student and used as required (e.g., stationery, exercise books, student diary).
- **Used** – these items are used/consumed in class by the student (e.g., industry technology/cooking/art supplies).
 - work/items produced from these resources will remain the property of the student.
- **Hired** – these items are hired to the student for their personal use for a specific period of time (e.g., textbooks, musical instruments, laptops).
 - Hired items must be returned to the school in good condition at the end of the hire period or if the student leaves the school.

- A repair or replacement cost may be charged to the parent for any hired items that are damaged or not returned.

Costing Methodology

A general fee for all students or a cohort group plus additional fees for individual subject inclusions.

No additional fee will be charged to our parent/carers for our 2025 Student Resource Scheme above the Textbook and Resource Allowance.

The Textbook and Resource Allowance

The Department of Education provides a Textbook and Resource Allowance (TRA) to assist parents with the cost of textbooks and other education resources for eligible Years 7 to 12 students. For those students who are eligible to receive the TRA, the TRA will be applied to reduce the cost of participation in the SRS. Information on the TRA can be found on the department's website (<https://education.qld.gov.au/about-us/budgets-funding-grants/grants/parents-and-students/textbook-resource-allowance>).

Year Level	TRA Rate
Years 7 to 10	\$160
Years 11 to 12	\$348
