BYOD at Toolooa SHS 2023

eLearning Vision

At Toolooa State High School we believe that teaching and learning practices that intentionally integrate and embed technology can do more than just enhance learning – they have the power to transform learning.

Our school's goal is for students to use iPads as a tool to support key processes in learning and for teachers to use them as an environment to facilitate deeper engagement in learning and higher-ordering thinking. We request that all students bring a device to school, and the preferred device is an iPad, as part of the booklist.
